ECSI's time-saving and affordable online courses, can be used as a distance learning platform where students can complete the knowledge-based component of the course online and then complete the hands-on skills evaluations with an instructor. Upon completion of the online course, students will print a course completion acknowledgement form that they then bring to an authorized ECSI Skills Testing Center for an on-site skills check. To receive an official ECSI course completion card, the form must be presented to an authorized ECSI Education Center Coordinator or Instructor within 30 days, and the required on-site skills check must be completed.
