

The Newest Edition of the Leading AEMT Textbook

The all-new **Fourth Edition** of **Advanced Emergency Care and Transportation of the Sick and Injured** combines comprehensive content with an unparalleled suite of digital resources to fully empower AEMT students and educators. Developed in coordination with the American Academy of Orthopaedic Surgeons (AAOS) and closely reviewed by industry experts, the **Fourth Edition** delivers the latest medical evidence and aligns to current EMS standards, now in a simpler, easier-to-read layout.

Key updates to the overall text include the following:

- Discussion of precautions and procedures in response to the COVID-19 pandemic
- Inclusion of the most current scientific recommendations developed by the International Liaison Committee on Resuscitation (ILCOR) and the ECC Guidelines established by the American Heart Association and other resuscitation councils around the world
- Reviewed and updated statistics throughout
- Clear chapter objectives that align with the 2019 National EMS Scope of Practice Model and 2021 EMS Education Standards
- Assessment Pearls that reinforce assessment priorities in each clinical chapter
- Street Smarts boxes that emphasize “soft skills” of EMS, including empathy, teamwork, and communication
